1. Langkah pertama <Membuat Akun GitHub>

Penjelasan

Pada langkah ini saya membuat akun GitHub baru dengan mengunjungi situs <https://github.com>. Saya mengisi data seperti email aktif, username, dan password. Setelah itu saya melakukan verifikasi email agar akun GitHub bisa digunakan.

2. Langkah kedua <Membuat File PDF>

Penjelasan

Saya membuat dokumen berisi tahapan perancangan tugas INFRAMES dan menyimpannya dalam format PDF sesuai format penamaan yang ditentukan.

3. Langkah ketiga <Membuat Repository di GitHub>

The image consists of two screenshots from the GitHub website, illustrating the steps to create a new repository.

- A "Join GitHub Education!" banner is displayed, featuring a code editor snippet with the text:

```

Nim : 255150307111058
```
- The "Home" section includes a search bar for "Ask Copilot" and buttons for "Get started with GitHub", "Learn to code", "Create a web app", and "Create a profile README for me".
